Essays
Why should you be part of PGPM Class of 2020 and how do you think you can enrich the experience of the Great Lakes Community?

I have maintained consistent grades and been in the top 15% of my class throughout college. Along with academics, I have explored several co-curricular activities offered in school as well as college. I have always been keen on taking up opportunity that comes my way. I learnt to play harmonium when i was 12 years old, participated in sports at secondary school, organised multiple events in college and was an active member of the drama society there. Being a peoples person, this trait helps me mix well with a variety of people.

As I stepped into my career with ITC Infotech, I realized my aspiration in life is to be more than a nine to five person. In a span of 2 years, I have been transferred to different cities (Pune-Bangalore-Pune) and into different domains. When many were reluctant to adapt to these changes, I looked at the opportunity with optimism and considered it as a great leaning experience working with people with diverse cultures and mind sets.

Being in the position of an associate, I have interacted with professionals of varied age groups, which has provided me with tremendous client exposure and has instilled greater confidence in me to face bigger challenges that come my way.

My job has taught me problem identification and also solving them in strict deadlines while making the most of the available resources. I feel that there is a need to grow a knack for analytical thinking and professional knowledge in me to fully utilize my potential which I can gain through an MBA.

My educational qualification, work experience and positive outlook towards life makes me an eligible candidate for your reputed institution. My sincerity, combined with hard work, patience and will to explore aligns perfectly with your institution's ideologies and I will strive to be a substantial value addition to the Great Lakes Community.

Is there anything else about you that is not covered in the application that you would like to share with us?
